Personal Summary

I'm a UI/UX & CMS Designer who believes in building digital experiences from scratch. Coming from a Computer Science background, I naturally look at design through both a creative and technical lens. I spend most of my time in Figma, wireframing, building rapid prototypes, and experimenting with parallax animations to make interfaces feel alive. I really enjoy diving into design Research & Development, testing out new visual trends, and ensuring every interface is intuitive, pixel-perfect, and user-centric.

EDUCATION

BSc in Computer Science & Engineering

University of Information Technology and Sciences

CGPA: 3.66 / 4.00

Sep 2022 - Aug 2026

SKILLS

- **Technical Skills:** HTML, CSS, MySQL, WordPress (CMS)
- **Design Tools:** Figma, Canva, Adobe Photoshop, Adobe Illustrator (Basic)
- **Project & Productivity Tools:** Trello, Notion, MS Office Suite, Google Workspace
- **Soft Skills:** Communication, Team Collaboration, Time Management, Problem Solving, Design Presentation, Articulating Design Decisions

UX Design

- Wireframing & Rapid Prototyping
- User-Centric Design & R&D
- Responsive Web & Mobile UX

UI Design

- Responsive web and mobile design
- SaaS Dashboards & Interfaces
- Reusable Components
- Parallax Animations

PROFESSIONAL EXPERIENCE

IT & Graphics Intern

Vacancy Hunting

July 2026 – Present

- Design structured visual assets, posters, banners and promotional materials utilizing Figma and Canva.
- Manage official online accounts to drive digital engagement and ensure consistent brand identity.
- Represent the organization at campus events, seminars, and career fairs to build sustainable talent pipelines.

TRAINING & INDUSTRIAL ATTACHMENT

2026 WFK IT Online Training Program

July 2026 – Aug 2026

KAIST (Korea Advanced Institute of Science & Technology)

- Completed intensive training focusing on modern digital product development and cross-cultural tech collaboration.
- Partnered with the KAIST team to build interactive digital and K-Culture projects.
- Gained hands-on experience in vibe coding, blending AI-driven development with manual UI/UX principles.

ACADEMIC PROJECTS

AutoTrace AI — AI-Powered Vehicle Damage Assessment System

- Led the manual UI architecture and feature planning, focusing on creating intuitive, SaaS-style dashboards.

Interactive Cultural Game 'Yutnori' (Vibe Coding Project)

- Manually designed interactive UI screens and visual elements for digital cultural games, including the Korean 'Yutnori' and traditional Bangladeshi games.

Kemne Jabo? — Smart Transit & Fare Estimation Platform

- Conducted visual R&D to design a user-centric transit app mapping Dhaka's multi-modal routes to prevent CNG overcharging.
- Integrated interactive maps, real-time geolocation, and dynamic fare calculators for an intuitive UX.

PUBLICATIONS

Explainable Multi-Class Electricity Theft Detection on the TDD2022 Benchmark

Accepted at the 12th IEEE International Conference on Sustainable Technologies and Engineering (IEEE ICOSTE 2026), Cox's Bazar, Bangladesh

- Co-authored research on explainable AI (XAI) and machine learning for smart grid security, evaluating models like LightGBM and XGBoost using SHAP analysis.
- Investigated multi-class electricity theft detection using advanced data analysis, bridging the gap between technical logic and actionable insights.

PARTICIPATIONS & ACHIEVEMENTS

- Excellence Award Winner, 2026 Project Competition: Awarded during the 2026 WFK IT Online Training Program. Recognized as part of Batch 2 Team 7 for demonstrating the highest level of creativity, technical excellence, and innovation in the Final Project Competition.
- Finalist, DDIEXP0 2026: Showcased 'AutoTrace AI', ranking Top 9 among 250 teams and earning recognition from the UITS IQAC Innovation Hub.
- Finalist, Hult Prize at UITS: Competed with Team IQ Optional in the NextJobz innovation challenge.
- Semi-Finalist, Undergraduate Startup Challenge 2025: Reached the semi-finals in the startup competition hosted by the BRAC University Entrepreneurship Development Forum (BUEDF) with Team IQ Optional.

EXTRA-CURRICULAR ACTIVITIES

Executive, Art & Creative Design Team

UITS Computer Club

- Created promotional designs and social media content for club fests, seminars, and various tech events.
- Developed strong communication, teamwork, and organizational skills.

Event Volunteer

- Volunteered in tech events like RedSentry (Hacked101), various seminars.

Former Member

Debate Club, Shamsul Haque Khan School & College

- Actively participated in debating and public speaking activities.
